I have placed a call into FDA this morning, I had to left a message, if I do not receive a call back I will call FDA every hour until I receive a response.

Raymond

PS One entry was tested last season, I am pulling the file and I will send you FDA's results.

Dear Raymond,

Remember we have the meeting on Monday, please send us immediately the results of the analysis done one week ago if you can get it early morning Monday 24th.

We need as well please any lab result from microbiological testing made last season (2006 - 2007) to our melons. This is very important back up.

Please inform,

Thank you,

Pablo
